## DETAILED ACTION

### ***Supplemental Election/Restrictions***

1. The late notice of this supplemental restriction requirement is regretted. It is noted that this further restriction parallels that which was imposed in the corresponding international application, PCT/US01/50723.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4 and 8-17, drawn to a multi-layered optical grating device producing a particular resonant grating effect when illuminated, classified in class 422.
  - II. Claims 5-7, drawn to a unitary optical device comprising a grating covered by a coating, classified in class 359.
  - III. Claims 18-25, drawn to a biosensor, classified in class 436, subclass 518.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are not capable of use together, but rather are disclosed as alternatives to one another. Furthermore, each of the claimed inventions have different modes of operation or effects.

Art Unit: 1743

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, or III, and the search required for Group II is not required for Group III, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
